PROFILE

I am a dedicated and skilled full-stack developer with 2 years of experience in MERN and WordPress development. With a strong interest in software development and artificial intelligence, I am enthusiastic about leveraging cutting-edge technologies to build innovative solutions.

EXPERIENCE

RestaurantBooking May 2023 | Remote Upwork *NextJS, Tailwind, MongoDB*

- Assisted senior front end developer to speed up the api integration and request validation before deadline.

TranslatinOtaku Jun 2021 | Remote Upwork *PHP, JavaScript, Bootstrap 5*

- Developed custom themes and plugins utilizing WordPress custom post types.
- Designed and implemented a bookmarking system to track and store and persist users' reading progress.

Strat-O-S Sep 2021 | Remote Upwork *PHP, JavaScript, SwiperJS*

- Streamlined legacy customer websites by migrating them to WordPress (PHP CMS) within strict timelines. Collaborated with client teams to successfully launch subscription-based courses using a membership plugin.
- Developed a custom WordPress plugin to enhance user interface (UI), implement carousels, and optimize forms.

Portfolio Feb 2023 *Go, Sqlite, SvelteKit, TypeScript*

- Acquired proficiency in Golang web development tools to swiftly build a portfolio website demonstrating my skills and accomplishments.
- Developed a lightweight application using SvelteKit, resulting in seamless navigation and enhanced user experience. Implemented a paginated blog feature and deployed the website to Google Compute

Todo Feb 2020 *TypeScript, MERN*

- Built a single-page to-do application using MERN (MongoDB, Express.js, React.js, Node.js) web development tools, with a focus on TypeScript.
- Implemented custom React hooks to optimize data fetching and enhance interactivity.
